PRECISION MACHINE AND MANUFACTURING, INC. HIRES MKTX TO PROVIDE MARKETING COMMUNICATIONS SUPPORT

BEAVERTON, Ore., September 16, 2009—MKTX, Inc., a full-service marketing communications firm, announced that it has been commissioned by Precision Machine and Manufacturing, Inc. of Eugene, Ore. to develop a variety of marketing communication materials including advertisements, collateral, direct marketing initiatives, enhancements to the company's website, and a public relations program.

Cited by the Portland Business Journal as one of Oregon's fastest growing businesses for 2008, Precision Machine and Manufacturing makes valves, feeders and screw conveyors for handling dry materials in harsh and severe duty applications. The company serves industrial customers worldwide who are involved with biomass power generation, mining, cement processing, feed and grain handling, and forest products manufacturing.

"It was important to have an agency that is able to understand our business and communicate our vision to customers in diverse industries to help drive our growth," said Jim Miller, Precision Manufacturing President. "We selected MKTX based on their track record of working with industrial companies to enhance their value."

Since its formation in 1998, MKTX has served business-to-business clients, raising visibility and supporting sales growth for a variety of companies including software and information systems, embedded computing, test-and-measurement, healthcare, real estate and industrial manufacturing.
