**MKT X PROMOTES IP FABRICS, INC. AND PHOSEON TECHNOLOGY, INC.'S  
EMERGING TECHNOLOGIES**

PORTLAND, Ore., March 15, 2005 —MKT X, Inc., a full-service marketing communications firm, announced that it has been commissioned by two Beaverton, OR high-technology companies, IP Fabrics, Inc. and Phoseon Technology, Inc., to create and implement marketing communications tools to promote their emerging technologies.

IP Fabrics, Inc., a software developer for network processor chips, commissioned MKTX to redesign their Web site in order to support a new product launch and make their products more accessible to customers.

Phoseon Technology, Inc., a high intensity integrated light system developer, contracted MKTX to help them define their brand and evolve current marketing materials to reflect their company growth.

Since its formation in 1998, MKTX has served business-to-business clients, raising visibility and supporting sales growth for a variety of companies including software and information systems, embedded computing, test-and-measurement, information displays, healthcare, and industrial manufacturing.
